BATEC MOBILITY

BATEC **KIDS**

Their first big adventure

Compact, lightweight and made for them

Some graphic design concepts

BATEC **KIDS**

Made to fit them

Batec Kids adapts the compact Batec Air platform to meet the needs of younger users. Its controls, speeds and adjustments are designed to help children move comfortably and build confidence step by step.

AT THEIR PACE

3 km/h: To get started

4,5 km/h: To build confidence

6 km/h: To enjoy every outing

For smaller hands

Adjustable brake levers make riding more comfortable and give smaller hands greater control.

Compact and foldable

Its 10-inch wheel and compact design make everyday journeys and family travel easier.

Easy to manoeuvre

Reverse gear makes it easier to move in tight spaces.

Ready to go

Colour display, front light, rear lights and horn.

Their next adventure starts here!
